BTL Social Media Guideline (Aesthetics)

Social Media | Examples

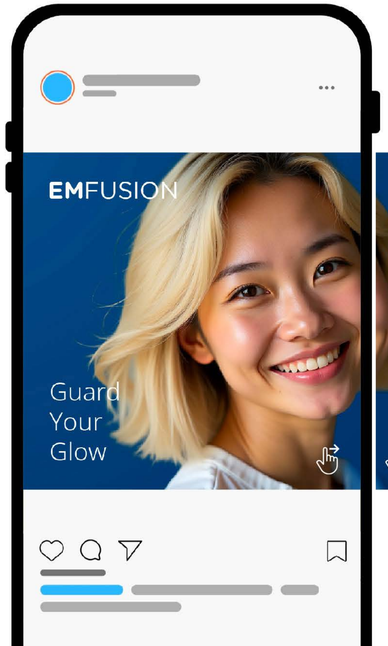

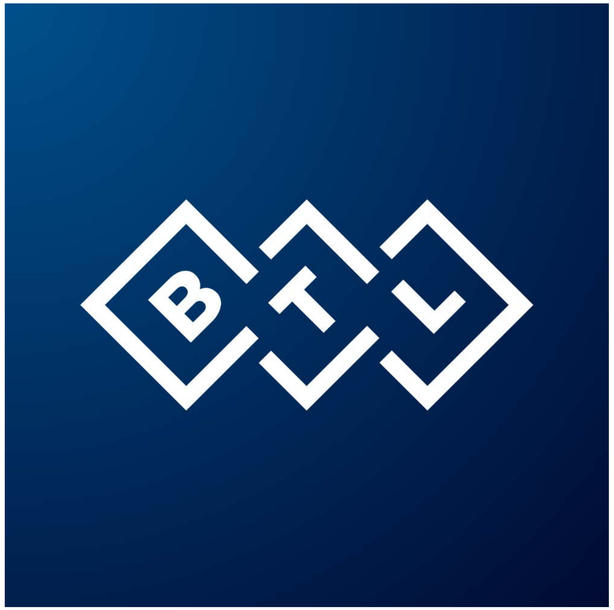

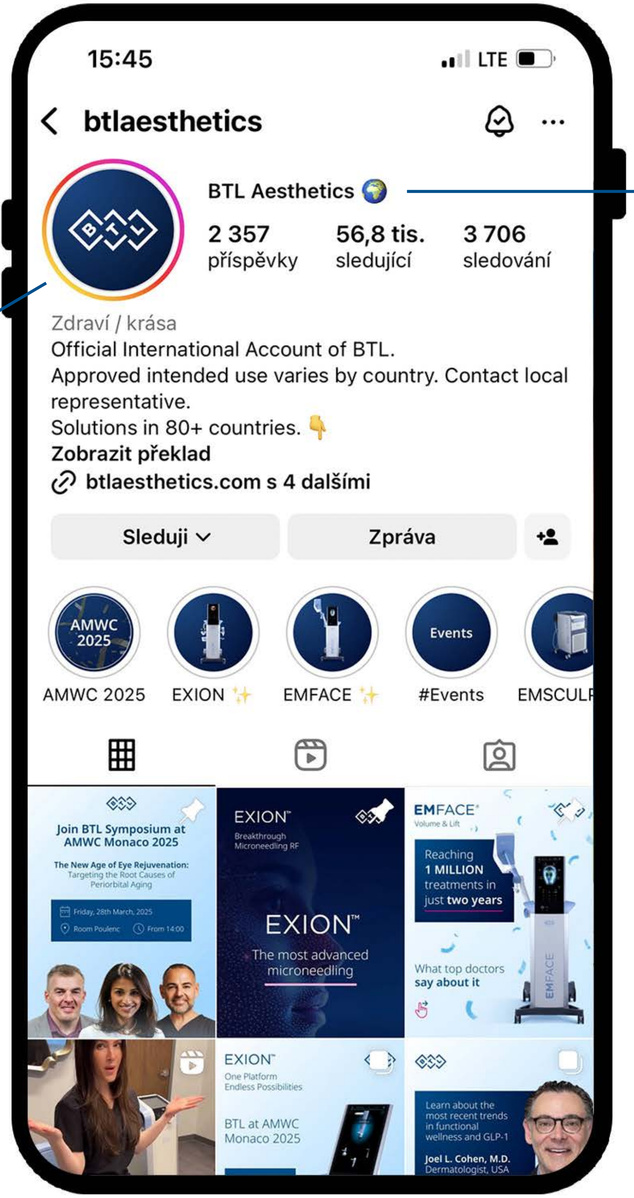

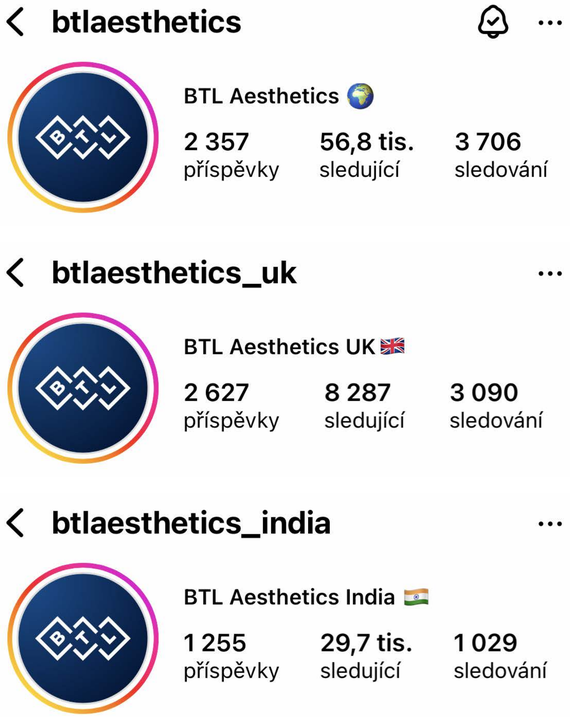

Social Media | Profile Image

Profile Image

Don’t add any graphic elements
or text to the safe zone around the logo.

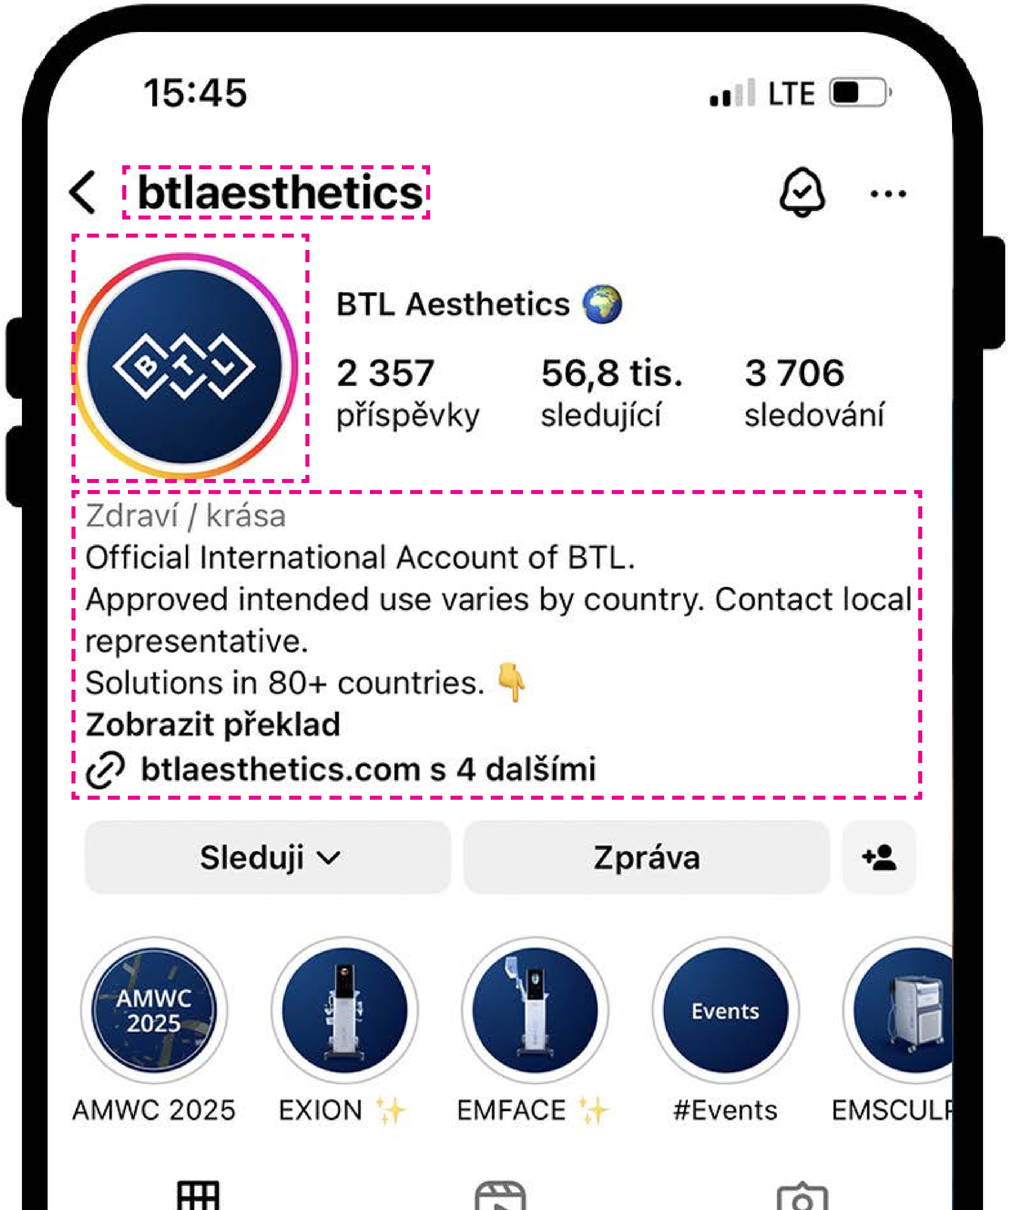

If you wish to differentiate your account from International account, you can add a country flag to your account name.

Social Media | BIO Section

Take advantage of your Instagram BIO section:

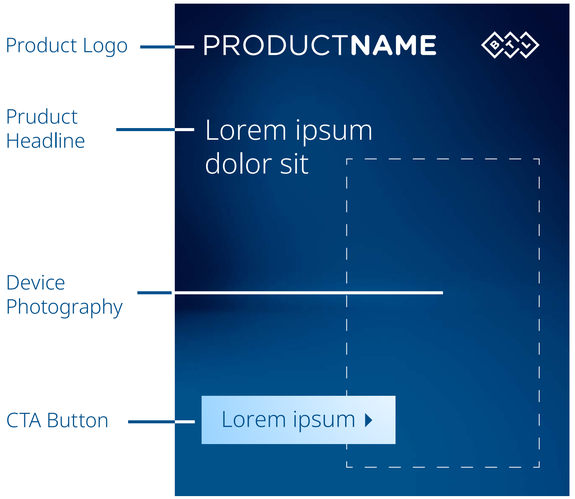

- Describe what your profile is all about in a few words (150-character description)
- Mention you are a branch of @btlaesthetics
- There is a relevant link (e.g. local/global website) and CTA
- You have a visible logo

Name: BTL Aesthetics + name of your country/country abbreviation -> BTL Aesthetics México
Username: btlaesthetics_name of your country/country abbreviation -> btlaesthetics_mx

Social Media | Reels Templates

Reels Safezone
Don’t put any elements in this area.

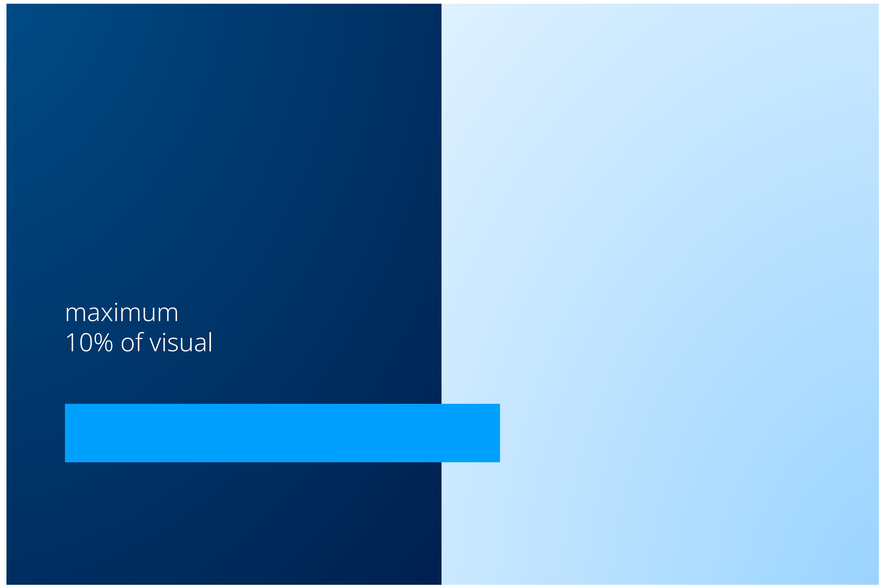

Social Post | Secondary Colors

Use secondary colors with care.

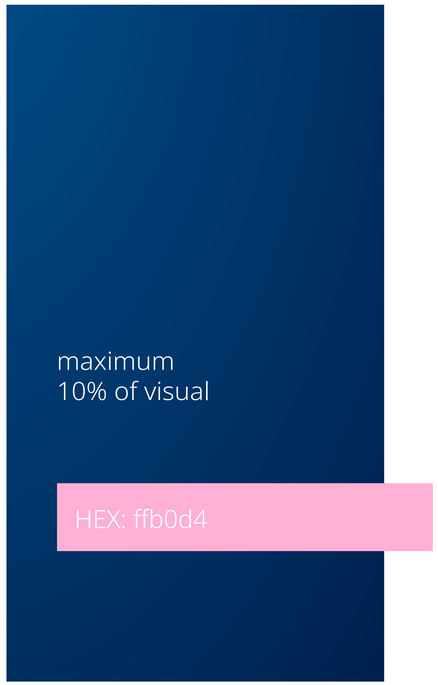

Only apply them when truly necessary, and limit their use to graphic elements and icons—not text. Secondary colors should support and highlight the main message, never overshadow it. Always ensure the primary brand colors remain visually dominant.
